It would appear that the hot line is not hot enough. So, I'm the neighbor of the hotter hot's U.S. station. So is Camp David. This station is indetified in the paper as part of Ft. Dotrick. Actually, of the complex, which also includes the little-known East Coast Relay Station...May be some doin: at Camp David. While I was walking up the mountain (in that general directio: about 9:15, there were at least five helicopters, invisible because the tree: were so dense only an occasional blotc! of sunlight worked through. About 9:45, as I got home, I saw five more, all th: kight kind of them many kinds. Of course, it is always possible that the military is undergoing a major relocation, further away from The Watergate.
